Building a mobile application to have live portfolio using flutter, Available for both platforms web and android.

Project link: [github.com/Adham45/Flutter\\_Web\\_Portfolio/tree/master](https://github.com/Adham45/Flutter_Web_Portfolio/tree/master)

### E-GREEN HOUSE, GRADUATION PROJECT [MOBILE APPLICATION DEVELOPMENT]

Building a mobile application to help agriculture sector in the country by having two interfaces, first one is for the farmer to monitor the cultivation process through the app, second interface is for the buyer to help him buying and selling crops in his shop. The app is associated with FIREBASE as a Back-End Platform.

## EDUCATION

MAY 2021

**BACHELOR OF COMPUTERS AND INFORMATION TECHNOLOGY, BENI-SWEIF UNIVERSITY**

Major: Computer Science

GPA: 2.92 OUT OF 4

Grade: very good

Graduation Project Grade: Distinct

## LANGUAGES

**ARABIC: NATIVE.**

**ENGLISH: GOOD (READING AND WRITING).**

## SKILLS

- Main programming skills [OOP, Data Structure, Java, Dart].
- Solid understanding of mobile life cycle.
- Dealing Firebase Auth and Cloud Firestore.
- Dealing with HTTP.
- Knowledge with Java and Android.
- Effective communication Skills.
- Working under pressure.
- Leadership Skills.
- Time Management.
- Creative Solutions.

## CERTIFICATS

AUG 2020

**THE COMPLETE 2020 FLUTTER DEVELOPMENT BOOTCAMP WITH DART, UDEMY [SELF-STUDY].**
